AYANNA'S MONTHLY MOVEMENT TIPS

MONTH 1	Try something new! I didn't like working out, so I tried swimming. I took a swimming lesson and had a great time!
MONTH 2	Motivate yourself through music! Cranking up my music helped get me moving.
MONTH 3	I got my family on board and started playing basketball with my son as a fun way to burn calories.
MONTH 4	Work out at home! I got some tips from Harley on exercises I could do at home when I didn't have time to go to the gym. Get a set of weights for your home and make a mini at-home workout area!
MONTH 5	Keep moving all day long! I don't always go to the gym to work out. Sometimes I will go golfing, or horseback riding, or walk around the neighborhood with my family. The important part is to keep your body moving, wherever you are!

AYANNA'S FAVORITE FOOD TIPS

TIP #1	Get rid of temptations! I had to get rid of my temptations in order to have a successful diet. No more “boyfriends” (a certain ice cream pair – you know who you are!) in the fridge, and no more sugar jar in the kitchen. Don’t keep bad food in the house!
TIP #2	Take control of your environment. I had to reorganize my kitchen. I removed the processed foods displayed in my “snack area” and replaced them with healthy items... I even filled a large glass vase with oranges. Not only are the oranges a healthy snack, but it’s also a beautiful way to decorate the kitchen!
TIP #3	Know your body. My body has a hard time processing carbs, so I completely cut them out of my diet. I also ate fish as my main protein source. After these simple changes, the weight began falling off!
